

Flooring

Carpet, vinyl, timber-look and turf.

Choose flooring you can lift, store and relay, or hand back to the manufacturer at bump-out.

01 Go modular

Tiles and planks over rolls. They lift clean, stack on pallets and relay next year.

02 No permanent glue

Loose-lay, click, tack tiles or release tape. Glued-down floors can't be reused.

03 Lock in take-back

Select a range with a take-back or rehome program and name it in the order.

Go-to options

PRODUCT	SUPPLIER	PRICE	WHY · END OF LIFE

Outdoor			
Astro turf	Re4orm recycling	\$30–\$60/m ²	Check with supplier if participating in take-back program

AO Target Materials List · prices indicative

Bump-out: lift, don't rip

Lift tiles clean and stack on pallets by product. Keep install off-cuts: Milliken and Tarkett take them back. Track materials procured in your [Materials Management Plan](#) and book the take-back.

TA Fire/Safety: before you order

Ask the manufacturer for the **AS ISO 9239.1** test report. Result must be at least **2.2 kW/m² Critical Radiant Flux**. Flooring used on a wall needs a different test (AS 5637.1).
